

POM 360 Foam Tape

Description

PO360 is grey color Polyolefin foam, very soft and flexible carrier, coated with modified solvent acrylic adhesive, excellent adhesion and high shear strength. Application on helmet processing, car audio fixing, IT products framework etc.

Composition

Red / Green PE Release Film
Modified Solvent Based Acrylic Adhesive
PO Foam 0.2 mm
Modified Solvent Based Acrylic Adhesive

Technical Characteristics

Item No.	POM360
Tape Thickness , mm	0.360
Material carrier	Polyolefin Foam
Colour	Grey
Adhesion to Steel, N/25mm	>25
Tack, Ball Number	15
Holding Power, hr/kg/10mm/25°C	168
Holding Power, hr/kg/25mm/80°C	24

Standard Size

Width	Length
1000mm	50m

Available in other sizes as well.
